The
App

① Add Functionality to the Quit Button
(Right-click button > Callbacks > Add)

② Add Functionality to the Play Button

③ Update functionality to play button

④ Update : Add Icon

```
29 % Button pushed function: PlayButton
30 function PlayButtonPushed(app, event)
31     if app.LevelEditField.Value == 1
32         app.Button_1.Text = 'I';
33         app.Button_5.Icon = 'WhackAMoleFace.png';
34         app.Button_9.Text = 'You';
35     elseif app.LevelEditField.Value == 2
36         app.Button_5.Text = 'Hate';
37     else
38         app.Button_1.Text = '';
39         app.Button_5.Text = '';
40         app.Button_9.Text = '';
41     end
42 end
43 end
44 end
```

⑤ Update to fix behavior

```
28 % Button pushed function: PlayButton
29 function PlayButtonPushed(app, event)
30     if app.LevelEditField.Value == 1
31         app.Button_1.Text = 'I';
32         app.Button_5.Icon = 'WhackAMoleFace.png';
33         app.Button_9.Text = 'You';
34     elseif app.LevelEditField.Value == 2
35         app.Button_5.Text = 'Hate';
36         app.Button_5.Icon = '';
37     else
38         app.Button_1.Text = '';
39         app.Button_5.Text = '';
40         app.Button_9.Text = '';
41     end
42 end
43 end
44 end
45 end
46 end
```

```
28 % Button pushed function: PlayButton
29 function PlayButtonPushed(app, event)
30     if app.LevelEditField.Value == 1
31         app.Button_1.Text = 'I';
32         app.Button_5.Icon = 'WhackAMoleFace.png';
33         app.Button_5.Text = '';
34         app.Button_9.Text = 'You';
35     elseif app.LevelEditField.Value == 2
36         app.Button_5.Text = 'Hate';
37         app.Button_5.Icon = '';
38     else
39         app.Button_1.Text = '';
40         app.Button_5.Text = '';
41         app.Button_9.Text = '';
42     end
43 end
44 end
45 end
46 end
47 end
```
